Biography

Uğur Satıç received his Ph.D. in Management Science (2022) from Lancaster University. He received his M.Sc. (2014) from Yıldız Technical University. His research interests in methods are dynamic programming, approximate dynamic programming and heuristic algorithms such as priority-rule based algorithms and genetic algorithms. He worked on the resource- constrained multi-project scheduling problem variations on his M.Sc. and Ph.D. studies. Ugur has two publications related to the resource-constrained multi-project scheduling problem which are a journal paper In the International Journal of Production Research and a book chapter in Lecture Notes in Computer Science, vol 12023. Springer, Cham. Ugur has a certificate from Associate Teacher Programme (2020) in Lancaster University which is Accredited by the Higher Education Academy. Ugur has worked at Lancaster University as a graduate teaching assistant from 2017 to 2021 during his Ph.D.
